According to the G.O. cited, the deficiency in the period of training undergone by Nurse Pupils can be condoned by the Director of Medical Services up to a maximum of 30 days. The Superintendent, Kasturba Gandhi Hospital for Women and Children, Madras has referred the case of Kumari V.P. Mangalam, a Nurse Pupil attached to the Kasturba Gandhi Hospital for Women and Children, Madras, who has had a deficiency of more than 30 days in the period of training in General Sick Nursing.

2. It has been ascertained that the deficiency in respect of the above nurse pupil has been caused on account of her illness and that it was supported by a Medical Certificate. The circumstances under which the above deficiency was caused were beyond her control. The actual period by which the training undergone by Kumari V.P. Mangalam falls short of 3 years is 57 days.

3. The Superintendent, Kasturba Gandhi Hospital for Women and Children, Madras has reported that the knowledge of the nurse pupil is up to the standard and that the deficiency was before her appearing for Part I of the Board Examination in General Sick Nursing which she passed with distinction even after the above mentioned spell of leave on Medical

Certificate. I, therefore, recommend that the Government may be pleased to condone the deficiency in respect of the above nurse pupil to enable her to sit for the final qualifying examination in General Sick Nursing to be held in November-December 1955. As the examination is fast approaching and as the nurse pupil has to submit the application together with the challan before the due date viz. 30-10-1955 I am permitting the candidate to sit for the said examination in anticipation of the approval of the Government.
